

NotJustLayout.com

we turn layouts into websites

Services

Web Design

Standing out in a crowded market means great design and whilst everybody has different requirements, we are now able to create exclusive web design solutions from scratch and / or customize the existent layouts design available at notjustlayout.com. Our aim is to match your needs and taste.

Web Development

Understanding your business lies at the heart of providing a successful solution. We offer a comprehensive solution for your presence online with a content management system which will satisfy most of your needs. In addition, our development team is able to cover every further requirement you might have, from simple modules to e-commerce solutions, at affordable price.

PPC marketing

Pay-Per-Click marketing allows you to bid on the phrases your customers use when they search for your products in search engines such as Google, but you only pay per click when they come through to your website. PPC marketing is truly is a pay-for-performance advertising medium. We set up PPC marketing campaigns

Hosting and domains

We offer website hosting service and domains registration (e.s. www.yourname.com).

Support

Our support doesn't end with the launch of your new site. We will continue, if you want, to work with you to refine your site and analyse it's performance to achieve the best possible results.

Our support is h/24 six days a week.
We answer your enquiries within 24 hours at support@notjustlayout.com
